	ACCT1021 Investment Planning	√					
	ACCT1029 Strategic Decision-Making for Accountants	√					

* Student granted admission into Entry Level 2 will need to take two of these three courses. The University will determine which course the student will undertake.

¹ It is recommended that students attempt and pass these subjects(s) in order to ensure no additional qualifying subjects will be required in addition to the five compulsory modules under the ICPAS Professional Examination.

Otherwise, exemption of these subjects will be recognised on the condition that relevant subjects have been attempted at Diploma level at SIM or any of the five polytechnics in Singapore, with passes at not less than grade C.
